Detailed Action

Election/Restriction

1. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 8-12. The claims recite distinct species for the generic claimed element "determining a preventative treatment"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

2. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 14-16. The claims recite distinct species for the generic claimed element "determining a future cost for the at least one condition"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 13 is generic.

3. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 26-29. The claims recite distinct species for the generic claimed element "wherein the predetermined condition comprises"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 25 is generic.

4. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 32-34 and 38. The claims recite distinct species for the generic claimed element "the benefit is provided to"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

5. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 56-60. The claims recite distinct species for the generic claimed element "determining a preventative treatment"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 49 is generic.

6. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 62-64. The claims recite distinct species for the generic claimed element "the future cost is determined"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 61 is generic.

7. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 74-77. The claims recite distinct species for the generic claimed element "the predetermined condition comprises"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 73 is generic.

8. This application contains claims directed to the following patentably distinct species of the claimed invention: claims 80-82 and 86. The claims recite distinct species for the generic claimed element "the benefit is provided to"

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 49 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vanel Frenel whose telephone number is 703-305-4952. The examiner can normally be reached on Monday-Thursday from 6:30am-5:00pm.
